1. Applicant's election without traverse of group II in the reply filed on 20 May 04 is acknowledged.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 2-5,9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Dutina, who shows a method of translating and pivoting saws with all of the recited steps including simultaneously pivoting the sawguides (9,11) which are individually pivotable as seen in figure 8 and abut one another as seen in figure 1 and 6 and therefor slide against one another. Dutina also discloses the step of simultaneous lateral positioning by use of an adjusting means (line 58, column 4 or lines 3,4, column 5). Dutina's sawguides are mounted on an elongate member (13) and positioned by a steering structure (the portion of the adjusting means that contacts the saw guides).

4. Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Made of record but not relied on are numerous patents showing adjustable saw blades.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson whose telephone number is 703-308-2186. The examiner can normally be reached on Monday thru Thursday between 7am and 4pm.
